Introduction

Grinding Technology Japan 2019 was the first exhibition focusing on the grinding technologies to occur in Japan. Even for its first edition, it was a success gathering around five thousand visitors in three days. According to the exhibitors, visitors were "fully aware of the sector" with "fast and productive discussions often leading to business". We would like to deeply thank once again all exhibitors, visitors and people who helped us achieved this exhibition soon becoming a must for people related to the grinding.

Grinding Technology Japan 2021 will be held for the second time in **Makuhari Messe, Hall 4-5, from March 2nd to 4th, 2021**. The size of the venue will be doubled as well as our efforts to offer an even better exhibition. We look forward to your participation to Grinding Technology Japan 2021.
